

Soft skill development

REPORT VA1819 HSFL4

A program was conducted by the institute for the students, teaching and non-teaching staff on how to manage stress and have a happy life. The program started with an inaugural function arranged by the student committee members followed by an enlightening lecture by Sri Acharya Kripamayananda Avdhut.

The lecture followed discussions on the way of life, positive environment and importance and ways to attain peace in a stressful life. The next day he emphasized on correct breathing techniques, different relaxation asana and their importance.

Outcome:

As we are dealing with various stresses in our day to day life, this program helped us to calm the anxious mind and gain focus on efficient working.

Name of the programme: Interpersonal relationships.

Speaker: Dr. Rajendra Birangane

Contact hours: 10am to 4pm

Place: lecture hall no. 1

Coordinator: IQAC

Details of the programme:

A work shop on the interpersonal relationship was conducted on this date 7th December 2020
In lecture hall no.1

PDUDC mainly for teaching and nonteaching faculty by Dr. Rajendra Birangane, head of the Department of Oral medicine and radiology. Began his lecture by explaining the meaning of the term interpersonal relationship which refers to a social connection, association, interaction and bond between two or more people. He went on explaining types of relationships such as family relationships, friendships, acquaintance and the romantic once. With respect to college it involves the individuals working together in same institute, in the same department and in the same team. He stressed that interpersonal relationships are important for our overall physical and emotional happiness and also gives you a sense of purpose in personal life. They are your support for life.

Thus he called upon both teaching and nonteaching staff who developed and maintain effective relationship between them. The programme ended up with vote of thanks.

Outcome of programme.

The audience understood the importance of the good interpersonal relationship which helped in

keeping positive environment in department.

REPORT

In view of the institution opting for the NAAC process, a lecture on 'Newer Methods of Teaching And Learning' was organised for the faculty and interns at PDUDC Lecture Hall no: 1, on 12th October 2021. The lecture was conducted by Dr Mona Shah Professor and Head Dept of Periodontology. After the inauguration at the hands of the Principal Dr Birangane, At the start the speaker explained the three basic types of learning and how best they can be used. Visual included using graphs, charts, illustrations, or other visual aids and elimination of potential distractions. Auditory which included reading aloud and explaining and summarising verbally and lastly kinaesthetic allowing the use of movement. She then explained the different teaching methods with examples including experiential methods, participative, problem based, project based, personal, role play etc. She also explained how lectures could be either normal with only a talk by the teacher, or with a talk followed by a Q & A session or Flipped where no lecture is taken but the topic is covered by group discussion or quiz. The program ended with a vote of thanks and was much appreciated.

Outcome of the program:

1. Teachers gained and insight into newer teaching and learning methods.
2. Teachers were motivated to put the same into practise for more interactive teaching and better understanding by the students,

BASIC WORKSHOP ON RESEARCH METHODOLOGY AND BIOSTATISTICS

As per the MUHS/IMETTT guidelines Basic workshop on "Research Methodology and Biostatistics" for PG students and PG teachers was organized in Pandit Deendayal Upadhyay Dental College, Solapur on 16th, 17th and 18th August 2017. The proposal and programme schedule was approved by MUHS/IMETTT ref no 1124/2017 dated 23.07.2017.

Chief Guest for the programme was Dr. Shubhalaxmi Kotnis, Associate professor Dept. of Community Medicine, Dr V.M. Medical College, and Solapur. Programme was previewed by Dr. Meena Kashetty, Head of the Department, Public Health Dentistry, PDUDC, Solapur and Dr. Kishore Sonawane, Head of the Department, Oral Pathology and Microbiology, PDUDC, Solapur. All the head of the departments and faculty members of the PDUDC institution were personally invited.

On 16th August postgraduate students and faculty members of all the departments of PDUDC assembled at lecture hall. Inaugural function began at 9.30 AM with a welcome speech by a PG student followed by lighting a lamp by chief guest.

As per the schedule submitted to IMETTT all the topics of the workshop were covered by the respective guest speakers. Total of 46 members participated in the workshop including PG students and teachers. Among 46 participants, 26 participants were faculty members and 20 were PG students. Participants were divided into 5 groups and all actively participated in the group activity during the three days workshop.

Pre-test was conducted among the participants immediately after the inaugural function. Daily feedback form for each day were filled by all the participants and program evaluation form were collected after completion of the workshop followed by the post-test. The feedback was very encouraging. Most of the participants found the programme very informative and recommended to conduct such programme in future.

Research paper writing and publication

Event Report

Name of the program: Research Paper Writing and Publication

Date: 19 august 2019

Speaker: Dr Abhay Kulkarni

Contact hours : 10 am to 4 pm

Coordinator: Scientific Committee

Details of the program

A work shop on Research Paper writing and Publication was conducted in Lecture Hall no: 3 at PDUDC on 19th august 2019 by Dr Abhay Kulkarni Associate Professor Dept of Oral Medicine and Radiology.

An introductory speech was given by the Vice Principal Dr Mona Shah followed by the lecture session on what research writing entails. He explained that Research writing is writing that uses evidence (from journals, books, magazines, the Internet, experts, etc.) to persuade or inform an audience about a particular point. He then talked on abstract framing and how to go about writing and presenting a synopsis. He stressed upon the pitfalls of plagiarism and explained how to go about getting an article published in a journal.

The program was well received by the audience and ended with a vote of thanks.

Outcome of the program:

1. The audience got an insight about the importance of research.
2. They understood the steps involved in writing their synopsis and thesis.
3. The steps involved in publishing an article or research in journals were better understood.

Tackling Obstacals And Language Barrier

REPORT

VA1920ELP10

A program was held by the department of oral pathology on English language development, the program was for two days dated 15/10/2019 and 16th/10/2019. The program was conducted with an intention to develop listening, speaking, reading, understanding and writing skills in English. The first day started with inauguration followed by talks by our speaker Mrs.Sai Suseela Vinod (MA BEd English literature) on various topics like basics of grammar and group discussions, post lunch was a talk on importance of phonics. Day two consisted of various exercise given to students and its assessment, talk on vocabulary related to dentistry by Dr.Noopur, followed by situational role play session. The motto was to improve communication and boost confidence.

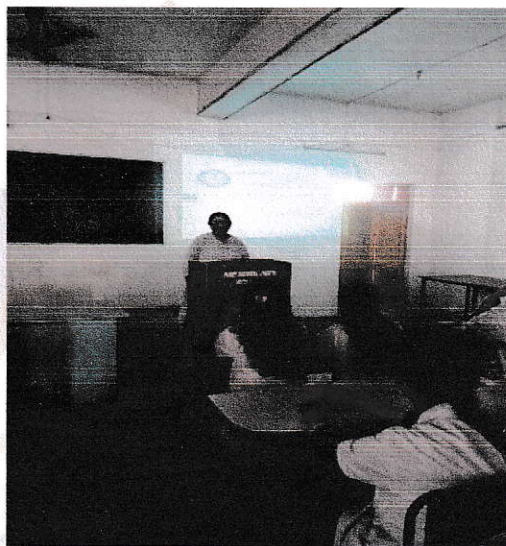

Outcome:

Speaking English increases your chances of getting a good job, as it's an international language universally accepted. Thus helps in socializing in conferences and other social and educational meetings, understanding language of text books written by foreign authors. Fluent English speaking helps in easy understanding of various, talks, webinars etc.

REPORT VA1718WH2

A program was been held on awareness of women's health issues "KNOW YOUR BODY-SPEAK TO AN EXPERT" the objective of the program was to raise awareness about women health in relation to various gynaecological problems and to provide insights into managing their body better. Dr. Anjali Chitnis senior gynaecologist was the resource person for the session. She spoke about common gynaecological issues faced by young women like PCOD, irregular menstruation, thyroid problems and fertility issues.

Her next talk cover different gynaecological diseases such as bacterial and fungal infections, cancer of ovaries, breast, cervix etc this was followed by question answer section.

The day two consisted of a talk by the eminent gynaecologist Dr. Minal Chidgupkar on how the need of the hour was to save environment and get into the habit of using alternate environment friendly measures during menstruation like menstrual cups and period pants.

Outcome:

It gave us knowledge on the importance of keeping us women healthy, giving an insight on various health problems we face and how it can be detected early. The program also helps us with how to go about a problem once occurred.

Event: Night walk (Ratragini)

On 23rd december 2019 the ratragini night walk was organized by dainik divya marathi. The students and faculty of department of pediatric dentistry, Pandit Deendayal Upadhyay Dental College, Solapur participated in the program. The program was carried out to send out a message that the women can walk fearlessly and without being stigmatized on the streets in the night. Women can also go out without time restriction. This is a very good initiative, most of the women are afraid of venturing out in the night but such marches will help in empowering womenfolk.

Event report

Name of the event: CHUPPI TODO against child abuse

Date : 20th February 2020

Place : Pandit Deendayal Upadhyay dental, college, Solapur

Number of persons attended = 45

Summery:

The program was organized to actively encourage the audience to stop the child abuse and take a step towards preventing it. And conveying the same to various sectors of people they come across at home and their college or work environment. Child abuse and neglect are serious global problems and can be in the form of physical, sexual, emotional or just neglect in providing for the child's needs. To stop the child abuse 1st step starts with our family members, neighbor, friends and relative to save them and make other people aware of it.

Ethical clearance

Event Report:

Name of the program: Ethical Clearance

Date: 17th march 2020

Category: Research Related

Speaker: Dr Rajiv Pradhan

Place: Seminar room at Dept. of prosthodontics

Contact hours : 10.30 am to 4.30 pm

Co ordinator: IQAC

Details of the program:

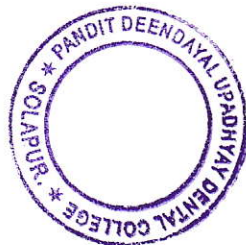

A scientific seminar titled 'Ethical Clearance' was conducted in seminar room at department of prosthodontics on 17th march 2020 at 10.30 am by Dr. Rajiv Pradhan eminent Pathologist and Chairman Damani blood bank Solapur.

After the felicitation of the guest speaker at the hands of Dr Birangane Principal, the lecture began with an introduction on the subject of Ethical clearance and its need in dental research. He elaborated that Research Ethics Clearance is an instrument to measure the ethical fulfilment of a research process. He also spoke on the 5 principles of ethical clearance namely voluntary participation, informed consent, anonymity, confidentiality, potential for harm, and results communication.

The program concluded with a vote of thanks and was well appreciated by everyone present.

Outcome of the program:

1. It was understood that any researcher who wants to conduct research involving human beings is first required to seek ethical approval from the relevant Research Ethical Committee (REC), which can either accept or reject the study
2. Also Studies collecting information from the public domain have no threat/ risk to human beings. Therefore most don't require ethical approval.
3. Steps to apply for ethical clearance were outlined.

Event Report

Name of the program: Good Clinical Practices

Date

Name of the speaker: Dr Santosh Dixit

Place:Lecture Hall no: 1

Contact hours: 10am to 4pm

Co ordinator: Scientific Committee

Program Details:

PDUDC lecture hall no :1 was the venue for an informative lecture on ‘ Good Clinical Practices’ on 21st may 2021 from 10 am onwards. The speaker for the lecture was Dr Santosh Dixit Professor and Head Dept of Prosthodontics and Oral Impantology’.

Ollowing the inauguration and introductory speech by the Principal Dr Birangane the speaker began his talk and outlined the meaning of good clinical practices, the purpose and principles for the same and highlighted the newer ideas and methods for good clinical practices.

He explained that GCP provides assurance that the data and reported results are credible and accurate, and that the rights, integrity and confidentiality of trial subjects are respected and protected . He also stressed that compliance with GCP is now a legal obligation for all trials involving the investigation of medicinal products.

The program concluded with a vote of thanks and was a success.

Outcome of the program

1. It was understood that all clinical trials should be conducted in accordance with ethical principles, sound scientific evidence and clear detailed protocols.
2. The rights, safety and well-being of the trial subjects are the most important considerations
3. It was underlined that freely given informed consent should be obtained from every subject prior to clinical trial participation.

Event: White Coat Ceremony

Date: 1/12/22

A white coat ceremony was arranged by the code of conduct monitoring committee of the college for the new 3rd year batch to orient them to the clinics before they start working on the patients in clinics. The program was graced by all the 3rd year students and the teaching staffs. A walk was arranged from the college entrance to the lecture hall to bring in zeal in the students. The principal Dr. Birangane R.S spoke on the importance of clinical practice and the do's and don'ts in the clinics. "The Code of conduct in clinics" proposed by the college was introduced to the students. The students were then asked to pledge and wear the white coat. This followed few words from volunteered students who spoke on what the white meant to them. The ceremony ended with a thanking speech by Dr. Noopur MK.

“Voters Day”

Name of the programme : Voters Day

Date: 25th January 2022

Speaker: Dr. Rajendra Birangane

Place : Lecture hall no. 1

Contact hours: 10am to 4pm

Coordinator : IQAC

Details of the programme:

25th January 2022 the institution celebrated National Voters Day and held a talk by the principal Dr. Rajendra Birangane on the importance and right to vote for all those above the age of 18 years.

Since 2011 National Voters Day has been celebrated on January 25th every year, all across the country to mark the foundation day of the Election Commission of India i.e. 25th January 1950. The main purpose is to create electoral awareness amongst citizens and encourage them to participate in the electoral process. Dedicated to the voters of the country the National Voters day is also used to facilitate enrolment of voters especially the newly eligible young voters. New voters are selected and handed over their Elector Photo Identity Card.

Messages such as “Your vote is your right, your voice “ and “Don’t be a quitter be a voter” were displayed on the placards that the students held during the program. The talk also conveyed the responsibilities of the young adults toward their country.

The talk was attended by the second year students who had just completed 18 years of age as well as faculty and non-teaching staff.

Event: Shivjayanti 2022

Date: 19th February 2022

Report:

The shivjayanti program was held on 19th February 2022 at pandit Deendayal Upadhyay Dental College, Solapur. The idea behind it was to create awareness in young minds of students regarding the valiant Maratha warrior Chatrapati Shivaji Maharaj. All students enthusiastically participated in the event. After the rally, the idol of chatrapati Shivaji maharaj was worshiped in traditional manner by the chief guest Dr. Rajendra birangane sir. Students depicted the history of great chatrapati Shivaji maharaj with an act to educate the student the kind of great and honorable life he led. And the program ended successfully.

REPORT

A scientific deliberation seminar on **Dental Ergonomics**^{was} conducted in Lecture Hall no: 1 on 6th October 2017. Dr Vikram Rathod Associate Professor Dept of Prosthodontics and Oral implantology, began a lecture by a brief description of the meaning of Dental Ergonomics in dentistry namely preventing musculoskeletal problems by enabling the dentist to adopt a more natural and comfortable posture, achieving patient-friendly treatment, improving treatment efficiency, and achieving treatment accuracy. According to him the successful application of ergonomics assures high productivity, avoidance of illnesses and injuries, and increased satisfaction among workers. Unsuccessful application, on the other hand, can lead to work-related musculoskeletal disorders (MSDs). In this regard care should be taken that the treatment environment with the patient chair, dental unit, operating light, dynamic and hand instrumentation, cabinetry and peripheral equipment must be flexible. Dentists need to adapt and guarantee good working postures, sufficient lighting and easy access to required instrumentation and materials for different working practices, clinical procedures and patient types. He elaborated the problem and MSD's namely lower back pain, upper back pain, tendonitis, carpal tunnel syndrome etc. He concluded by saying that Dentistry does not lend itself to good posture; however, it is possible with instruction and practice to correct the harmful postural habits that may be the cause of such stress and pain.

Outcome of the program:

1. Generated awareness about Dental Ergonomics and work related MSDs .
2. The students understood that Dental professionals are prone to unique muscle imbalances and require special exercise and ergonomic interventions to maintain optimal health during the course of their career.

Report

Dental Materials

Dr Varun Deshpande Associate Professor Dept of Prosthodontics and Oral Implantology

To begin with Dr Varun explained that Dental Materials is a subject that provides an introduction to dental materials in the oral environment. He further explained that from this knowledge base, students learn to understand the role of dental materials in the delivery of preventative and restorative care. The composition, properties, and manipulation of materials used in dentistry, as well as procedures used during application are emphasized. He then gave a brief introduction about the topics that would be covered during the entire year.

Topics include: dental material standards; dental materials properties; direct and indirect restorative dental materials; preventive dental agents; impression materials; gypsum products; mouth guards and whitening systems; dental bases, cements, and liners; temporary restorations; polishing procedures for dental restorations; fixed and removable dental prostheses; sealants; implants; adjunct dental materials etc.

He concluded by hoping that the students took interest and concentrated on learning the subject well since it is the very foundation of dentistry.

Outcome of the program:

1. The lecture gave an insight into what is included in the study of dental materials and the applications in various areas.

Event Report

Name of the program: Aerosol Management in Dentistry

Date: 3rd June 2019

Speaker: Dr Vidhi Kevadia Shah.

Place: Lecture Hall no: 1

Contact Hours: 10am to 4pm

Co ordinator: IQAC

Details:

A scientific lecture on 'Aerosol Management in Dentistry' was conducted in Lecture Hall no:1 PDUDC on 3rd june 2019 , 10 am onwards by Dr Vidhi Kevadia Shah, Associate Professor Dept of Periodontology.

The program began with felicitation of the principal and vice principal followed by an inaugural address by the principal Dr Birangane.

Specially on account of the pandemic this topic was very important and was very well covered by the speaker who explained about the meaning of aerosols, how they are generated, the various zones of aerosols and stressed on the guidelines for aerosol management and gave an account of the newer ideas to prevent aerosol contamination.

It was a very interesting lecture on a topic of great concern to dentists.

Outcome of the program:

1. Audience learnt the significance of aerosol management.
2. Newer methods of prevention of aerosol contamination were elaborated.
3. Precautions to be taken in the dental office were emphasised.

Name of the programme: NEET preparation

Place: Lecture hall no. 1

Speaker: Dr Noopur Kulkarni Associate Professor Dept of Oral Pathology

Coordinator: IQAC

Contact hours: 2 hr

Details of the programme

The speaker began the lecture by an introduction to The National Eligibility cum Entrance Test (Postgraduate) MDS which is a qualifying and ranking examination in India, for students who wish to study various postgraduate MDS courses in government or private dental colleges in the country.

She advised the basic care to be taken if they are targeting the upcoming medical tests, go through these preparation tips to crack NEET:

1. Be Familiar With The Syllabus. ...
2. High-Quality Study Material. ...
3. Create a Realistic Timetable. ...
4. Prepare Notes While Learning. ...
5. Revise Regularly. ...
6. Maintain a Healthy Diet. ...
7. Regular Study Breaks are a Must. ...
8. Do Proper exercise to reduce stress

9. Candidates can appear for as many times as they want. There is no cap on the number of attempts in NEET PG exam. As per the experts, candidates may appear twice for the exam to improve the score or to do away mistakes in the first attempt

12. She stressed on the fact that mcq banks made by interns in each subject topic wise were available in the depts for perusal and urged students to use them. She also said that members of the staff were always there to help and guide them.

Outcome of the program

1. Students got an insight about NEET and method of preparation.

REPORT

And informative lecture on Informed consent & consumer act was arranged on 2nd April 2021 In lecture hall no. 3 PDUDC. The lecture was inaugurated by the hands of the principle Dr. Birangane who the introduced Dr. Sagar Kumbhar Assist. Prof. Community dentistry. The speaker first defined the consumer protection act 1996 as a generous social legislation that laid on consumer sees to the promotion and rights of the consumer. He then went on to explain the objectives of acts and rights of the consumers. All dental practitioners and all private hospital who charge patients are liable. He then elaborated on procedures and time limit. He discussed the common allegations brought against dental members like slippage of instruments, broken needles, roots left in the sockets, respiratory blockage, ill-fitting denture and infection from unsterile instruments. He also talked on 2019 amendment to the act and new regressed system.

Lecture concluded with vote of thanks

Outcome of the programme.

The audience understood need to be more responsible, attentive and remain up-to-date to serve the society in more effective and efficient manner.

REPORT

VA2021R13

This year we celebrated the 125th world day of radiography on 9th and 10th nov 2020. It marked the anniversary of Wilhalm Congen's discovery of X rays, which led to the production of 1st radiographs.

1. Exhibition was arranged on black and white photography
2. Dr. Birangane gave an informative lecture on justification of radiographical procedures and optimization of patients and worker's protection.
3. A talk on recent radiographic techniques and procedures like computer tomography MRI mammography etc. was given by Dr. Abhay Kulkarni.
4. This was followed by an enlightening talk on errors in reading radiography's by Dr. Rohan Chaudhary.
5. On the next day there was a lecture cum hands -on on how we make radiographs
6. Followed by a detailed talk on radio-visiography by Dr. Supriya Sankpal

The lunch was followed by cake cutting and prize distribution for essay writing and photography.

OUTCOME:

This event enlightened us with the latest machines in the field on radiology; help us with easy way of interpretation of xrays. The hands on was a revision to the students working in clinics. We also had many participants for the essay and photography competitions, which was a success.

Report

What after BDS?

The actual purpose of education is to believe the student to meet challenges in life. Being a good dentist Mastering dental skill involves not only mean acquiring knowledge but also the right professional attitude, stability and development of communication skills. The idea is to guide the students they can do the attain success With the knowledge and skills they have acquired in the 5 years of graduation this dental course.

Keeping this in mind PDUDC have arranged a programe to guide there students on the various career opportunities available after acquiring a dental under graduation degree.

A programme was conducted on 13th April 2022 for the interns and final year hoping the programme will help them mold there future.

A speaker Dr. Denzy Lawrence. Reader department of PHD dental college Dawangiri was to conduct the talk.

The student was enlightened on various option which could be taken as followes:

- Fellowship in various colleges abroad
- About the availability MDS seats in India
- How to do self-analysis and self-study in internship
- Available options in army like dental cops
- How to enhance the dental practice by setting up dental clincs etc it was also mentioned how to enhance our hobbies and use it as business

The talk followed a question answer session where queries of various students were answered by the speaker.

REPORT

VA 2122 RE 23

Department of conservative dentistry and endodontic celebrated CONS-ENDO DAY on 23 and 24th on March 2022 with a lecture com hands on course on basics of rotary endodontics. The event was conducted under the banner of IACDE @40. The course fee was 1500/ head, the participants comprised of interested interns, ex-students, pgs., faculty and private clinicians. The lectures were held in lecture hall no 1 and the hands on were in the conservative department. Inauguration and cake cutting took place at the hands on our principal Dr.Birangane sir and Dr.Bakale. Dr.Birangane gave a lecture on root cannal treatment then and now and spoke about the evolution of root canal treatment from hand held reamers and files and conventional hand pieces to state of the art rotary endomotor and apex locator and RVG, every one appreciated the humor in his lecture. This was followed by a session by Dr.Bakale who explained in detail about the basics of rotary endodontics and its importance in current day to day practice. He talked about the current dos and don'ts of rotary endodontics. This was followed by a question answer session which continued throughout the afternoon. The second day involved demonstration and hands on of biomechanical preparation in batches. The candidates were provided with a set of free rotary files. The demonstrations were carried out by Dr.Srivivas Bakale, Dr. Nikhil Hatte, Dr.Rohini Pawar, Dr.Shreya Patil .The event concluded with distribution of certificates issued by IACDE. The program was successful and received a good feedback from the participants

Outcome:

The lectures and hands on were all very informative and helpful in our day to day dental practice.

REPORT

VA2122DI24

The Department of Prosthetics Crown and Bridge and Implantology, PDU dental college in association with IDA Solapur, Indian Prosthodontics Society Pune branch organized a CDE program on 24th and 25th April titled Dental Implants –An epitome in clinical dentistry. The program was held in the auditorium of Punyashlok Ahilyabai Holkar University, Solapur. Inauguration was done in the hands of Dr. V. B. Patil pro-vice chancellor Solapur University who was the chief guest of the event. The session began with very interesting cases presented by Dr.Santosh Dixit (Prof. & HOD) titled dental implant in varies clinical scenarios, this was followed a by lecture on dental implant in anterior esthetic zone by Dr.Vikram Rathod (Associate Proferssor). The afternoon session was initiated by Dr.Varun Deshpande (Associate Proferssor) who spoke on immediate dental implants; this was followed by a lecture by a senior PG Dr.Vaishnavi Tambake, about impressions in dental implants. The session ended with an inter-disciplinary lecture regarding periimplantitis by Dr.Vidhi Kevadia. The next day began with interesting demonstrations by Dr.Santosh Dixit on basic implant placement in Styrofoam models and methods of making implant impression. The program was successfully attended by private practitioners, post-graduates, faculty and interns.

OUTCOME:

The program was very information for clinical practice as dental implants was not only discussed but demonstration and case discussion was also done.

REPORT

A capability enhancement programme was conducted by Department of periodontology for the students regarding how to read and critically evaluate an article on 5th July 2021. The lecture was called "Research, not just a search" and was taken by Dr Vidhi Kevadia Shah, associate professor in Department of periodontology. The lecture focused on recognizing clinical knowledge gap, formulating a question finding and relevant article, evaluating the article and integrating into the practice. Lastly, she concluded by saying that these are the steps of evidence-based dentistry.

Outcomes:

1. learn to read and evaluate an article
2. Improving patient care.
3. Preparation for research work/thesis.
4. Selection of article for journal club
5. Guide to writing your own article

Event report

Name of the programme: digital dentistry/intra oral scanner

Date: 6/10/2021

Speaker: Dr. Akash Lavate

Place: lecture hall no.1

Contact hours: 10am to 4pm

Coordinator: scientific committee

Details of the programme

A scientific programme on digital dentistry / intra oral scanner was organized in lecture hall no. 1 PDUDC 6/10/2021 At 10am. The speaker for the session was Dr. Akash Lavate Associate prof. Dept. of orthodontics.

The session began with the inauguration at the hands of the principal Dr. Birangane who then introduced the speaker.

Initially, Dr. Lavate spoke on the conventional technique of impression making highlighting the disadvantages of the technique. And explaining why the shift from analogue to digital was needed. He then went on to explain intra oral scanners in detail and elaborated that it is basically a 3D capturing technology converting 2D images into 3D which are displayed digitally on the screen. Advantage of this technique is its accuracy and precision. The indications are in fixed partial denture making, implant bridges, single tooth crown, post and core, RPD, obturator, digital smile designing and in orthodontics for making aligners.

This was followed by question and answer session. The programme was appreciated and concluded with vote of thanks.

1. Outcome of the programme, the audience understood latest techniques of impression making and accuracy and precision of digital scanning.
2. The limitations of cost and specialized training and good laboratory also understood.
3. They could appreciate multiple benefits and indication for using digital scanning.

REPORT

BASIC WORKSHOP ON RESEARCH METHODOLOGY AND BIOSTATISTICS

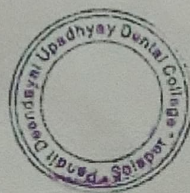

As per the MUHS/IMETTT guidelines Basic workshop on "Research Methodology and Biostatistics" for PG students and PG teachers was organized in Pandit Deendayal Upadhyay Dental College, Solapur on 16th, 17th and 18th August 2017. The proposal and programme schedule was approved by MUHS/IMETTT ref no 1124/2017 dated 23.07.2017.

Chief Guest for the programme was Dr. Shubhalaxmi Kotnis, Associate professor Dept. of Community Medicine, Dr V.M. Medical College, and Solapur. Programme was previewed by Dr. Meena Kashetty, Head of the Department, Public Health Dentistry, PDUDC, Solapur and Dr. Kishore Sonawane, Head of the Department, Oral Pathology and Microbiology, PDUDC, Solapur. All the head of the departments and faculty members of the PDUDC institution were personally invited.

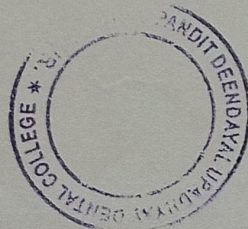

On 16th August postgraduate students and faculty members of all the departments of PDUDC assembled at lecture hall. Inaugural function began at 9.30 AM with a welcome speech by a PG student followed by lighting a lamp by chief guest.

As per the schedule submitted to IMETTT all the topics of the workshop were covered by the respective guest speakers. Total of 46 members participated in the workshop including PG students and teachers. Among 46 participants, 26 participants were faculty members and 20 were PG students. Participants were divided into 5 groups and all actively participated in the group activity during the three days workshop.

Pre-test was conducted among the participants immediately after the inaugural function. Daily feedback form for each day were filled by all the participants and program evaluation form were collected after completion of the workshop followed by the post-test. The feedback was very encouraging. Most of the participants found the programme very informative and recommended to conduct such programme in future.

In honour of world hepatitis day, a program was arranged by the department of PHD on 27th and 28th July 2021 named "Hepatitis and stress management". The program began with a lecture by Dr. Birangane on viral hepatitis where he stressed on the life threatening disease hepatitis B which affects the liver having similar symptoms like jaundice in the initial stages. He also spoke of Hep. C, which constitutes a major public challenge. He stressed on vaccination and its importance especially birth dose for hepatitis B, and safety in health care providers especially as dentist. He also spoke on the protocol for post exposure prophylaxis. Dr. Abhay Kulkarni spoke on preventive measures for viral hepatitis and the importance of water sanitization and hygiene he also cautioned about needle stick injury and stressed on the importance of early prophylaxis. Dr. Jyoti Chidgupkar spoke about the microbiological test for diagnosis of the various hepatitis types.

Day 2 began with a lecture on mental health and stress management by Dr. Sampada Anvekar, reputed neuropsychiatric from Solapur. She spoke on importance of mental health and myths and facts about depression. She followed it with a discussion on stress and how it affects our mental health. She talked about the prevention and treatment of stress which included foods that reduced stress, engaging in hobbies, practicing relaxation techniques, exercising regularly and having a good support system. She also emphasized on the importance of yoga and meditation.

Outcome:

Being in the dental profession we are the most exposed to hepatitis B as we are dealing with patient saliva on a daily basis thus knowing the prevention measures and prophylaxis of hepatitis is mandatory as it is life threatening. A discussion on stress and how it affects our mental health is the need of the hour as we face many students/ staff coming to be in depression, it's important to know to deal with them and motivate them to get the best out of them.

REPORT

In view of the institution opting for the NAAC process, a lecture on 'Newer Methods of Teaching And Learning' was organised for the faculty and interns at PDUDC Lecture Hall no: 1, on 12th October 2021. The lecture was conducted by Dr Mona Shah Professor and Head Dept of Periodontology. After the inauguration at the hands of the Principal Dr Birangane, At the start the speaker explained the three basic types of learning and how best they can be used. Visual included using graphs, charts, illustrations, or other visual aids and elimination of potential distractions. Auditory which included reading aloud and explaining and summarising verbally and lastly kinaesthetic allowing the use of movement. She then explained the different teaching methods with examples including experiential methods, participative, problem based, project based, personal, role play etc. She also explained how lectures could be either normal with only a talk by the teacher, or with a talk followed by a Q & A session or Flipped where no lecture is taken but the topic is covered by group discussion or quiz. The program ended with a vote of thanks and was much appreciated.

Outcome of the program:

1. Teachers gained and insight into newer teaching and learning methods.
2. Teachers were motivated to put the same into practise for more interactive teaching and better understanding by the students,
