

2021-2022

Annual Report

**Pandit Deendayal Upadhyay Dental
College & Hospital, Solapur**

CHAIRMAN

Dr. Pritam Gopinath Rao Munde

A dermatologist and Indian politician representing the Bharatiya Janata party, she is a sitting Member of Parliament in Lok Sabha from Beed Maharashtra. She is the second daughter of BJP leader late Gopinath Munde. In 2014, she won the Lok Sabha seat with a margin of 696321, the highest ever in India's electoral history. She believes that education does not know any boundaries of growth and strives to further her dreams of shaping young minds through quality education. Our institute has soared to new heights under her able guidance

EXECUTIVE DIRECTOR

Dr. Dayanand G. Chole

An alumnus of Govt. Dental College and Hospital Aurangabad, for both BDS and MDS programs he completed his MDS in Conservative Dentistry and Endodontics in 1998. He worked as a Senior Lecturer at GDC Aurangabad from 1997 till 2006 when he joined Pandit Deendayal Upadhyay Dental College as Head of the Dept. of Conservative Dentistry. Within a short time he took on the responsibility of Executive Director of the institute looking after the strategic planning and overall running of the organisation. He is extremely efficient at his job, has excellent organisational skills, prioritises tasks according to their importance, and handles multiple projects without getting overwhelmed. He is a UG and PG examiner and has 26 publications to his credit.

He has worked as an **EC member** in IDA Aurangabad

PRINCIPAL

Dr. Rajendra S. Birangane

An alumnus of Govt. Dental College, Aurangabad having completed his MDS in Oral Medicine and Radiology in the year 1997. He has a vast experience of 25 years of teaching of which he has been serving as a Principal, Professor & Head of the Department of Oral Medicine and Radiology at Pandit Deendayal Upadhyay Dental College since the past 12 years and continues to do so with zeal and enthusiasm. He is the executive committee Member of Maharashtra State Dental Council and has been a Life Time Member of Indian Academy of Oral Medicine & Radiology. He has 3 International publication and 20 National publication to his credit.

He was awarded the “**Best Teacher Award**” by Lions Club of Solapur in 2012-13.

About the Institution

Smt Mallawabai Valyal Charitable Trust was founded in 1991, by Late Shri. Lingraji Valyal, Ex-MP Solapur. In 2001 the Dental College was started and named after the renowned founder of RSS Shri. Pandit Deendayal Upadhyay. This was the first dental college in Solapur and nearby districts. Later the trust was taken over by Veteran BJP Leader from Maharashtra, late. Shri Gopinath Munde in 2004-05 and presently his daughter Dr. Pritam Munde, Member of Parliament is leading the institution.

To begin with college started with 40 BDS intake and then in 2013-14 the intake was increased to 100 BDS seats. Post-Graduation (MDS) courses began in the subject of Orthodontics in 2013, in Prosthodontics in 2014 followed by MDS in Conservative Dentistry, Periodontology, and Oral Medicine in 2015. Both BDS and MDS courses are recognized/ approved Dental Council of India and affiliated to Maharashtra University of Health Sciences, Nashik.

The college is spread in a sprawling area of 6 acres with green environment. In the college premises we have the college building, hospital, auditorium, playground, separate hostel for boys and with mess and canteen facility and general and medical store as well as medical doctor on duty for students.

The vision behind starting the college to provide quality dental health services to the society have been achieved at large extend. Now presently near about 70000 patients per year are being treated in our hospital. State of art treatment modalities like dental laser, dental implant, Maxillofacial surgery, advanced root canal treatments, treatment of children's teeth, is available at very reasonable cost. Basic treatments like tooth extraction, complete denture, silver filling, scaling, are done free of cost. All Gov. Schemes under social welfare and charitable trust office are implemented and free treatment is done to low economic group and below poverty line (BPL) patients. We have free transport for the patients from city bus stand twice in a day. Also, regular dental check-up and treatment extension activates are organized for which a separate well equipped mobile dental van facility is available.

Well qualified teaching faculty is available along with state of the art preclinical and clinical equipment. All the dental surgical material are provided free of cost to the students. University student's beneficiary schemes like "Earn and Learn", Savitribai Phule Shikshan Yojana" is available for the needy poor students. Every year university results are 80-100%. Many of our students have proceeded for higher education in India and abroad and many others are self-employed which bears testimony to the fact that PDUDC is a promising institute creating dental surgeons empowered to excel in the field of dental sciences.

Oral Medicine and Radiology

Department of Oral Medicine and Radiology is unique as it is the bridge between medical science and dental sciences. Oral cavity is a mirror of the rest of the body and thus this department holds a special clinical area that focuses on diagnosis of oral lesion, orofacial disorders, orofacial complexes and various behavioral disorders related to oral health. Oral medicine involves patient care, teaching and research involving diagnosis and medical management and thus in turn helps in the improvement of a patient quality of life.

Oral and maxillofacial radiology deals with acquisition and interpretation of radiographic imaging which is a guide for diagnosis of conditions affecting the orofacial region. On a whole the department aims for expert oral medical care which is affordable and quality based. "To promote optimal oral health to the society".

Oral and Maxillofacial Surgery

Oral and maxillofacial surgery is the specialty of dentistry that includes inpatient and outpatient care, sedation and outpatient anesthesia, the management of diseases of the teeth and their supporting soft and hard tissues (dentoalveolar surgery), surgical reconstruction of the jaws, placement of dental implants to replace one or more missing teeth, treatment of traumatic injuries to the face, jaws, mouth and teeth, diagnosis and treatment of temporomandibular joint (TMJ) disorders, oral cancer and other diseases in the maxillofacial region, reconstructive and corrective jaw surgery (orthognathic and craniofacial surgery) to improve the function and appearance of patients with such conditions as cleft lip and palate and other congenital skeletal defects, micro-neurosurgical repair of facial and trigeminal nerve disorders, and facial aesthetic surgery procedures to enhance facial appearance and function.

The Department of Oral and Maxillofacial Surgery is responsible for the didactic and clinical instruction in Oral and Maxillofacial Surgery and Local Anesthesia and Pain Control for the undergraduate dental students.

The Department is fully committed to patient care, student education, service to the institution, the community, and the profession, continuing dental and medical education, and scientific research and publication.

Periodontology

Periodontology trains the future Dentists and Periodontists to diagnose, investigate and treat diseases affecting the supporting structures of teeth.

“Each tooth in oral cavity has the right to survive for a lifetime & Periodontists strive to preserve each one to improve overall quality of life”.

The Department of Periodontology has spacious undergraduate and postgraduate sections, thereby gaining an edge to treat a large number of patients at one go. The department has all the latest facilities as well as surgical equipments such as Ultrasonic scalers, Electrocautery, Light cure units, Iontophoresis unit, Bone grafting materials and GTR, Laser, Piezosurgical unit, Microsurgical loupes and microsurgery instruments, Implant unit and kits, RVG etc.

These are used to carry out advanced surgical procedures like Perioesthetics, Mucogingival surgeries, Papilla preservation techniques, Regenerative periodontal procedures, dental implants, etc.

Paediatric Dentistry

Pedodontics is an age defined specialty that provides primary and comprehensive, Preventive and Therapeutic oral health care for infants and children through adolescence, including those with special health care needs. Its major objectives are to maintain functioning, esthetics and arch integrity of the primary dentition, the Treatment and prevention of dental caries in primary and young permanent teeth and Child dental health care education to parents.

Paediatric Dentistry is one of the most interesting, challenging and rewarding dental specialties. The clinical setup boasts of a cheerful atmosphere conducive to the rendering of dental treatment to children of all ages & complying to the standards of a dental hospital. The Department is well equipped with confident, experienced and most enthusiastic team of teaching faculty to train under graduates to develop necessary clinical skills for providing basic dental care to children with emphasis on preventive and restorative dentistry.

Conservative Dentistry & Endodontics

The Department of Conservative Dentistry & Endodontics deals with the diagnosis and management of decayed teeth and endeavors to deliver the best possible treatment options by providing the patient with a wide range of treatment modalities like metallic and tooth-colored restorations, endodontic treatment, endodontic surgeries, and aesthetic work like veneers, crowns, whitening of teeth, etc. The aim is to conserve the natural dentition and maintain it in a harmonious relation with the oral tissues and health in general. The department has on an average 1000 patients visiting it every month.

The students learn the art and science of diagnosis, prevention and treatment of defects of teeth resulting in restoration of proper form, function and esthetics. They also learn advanced endodontic treatment that helps to maintain and restore the health of the tooth.

Programs at the Department are planned to train and equip students with skills that will stand them in good stead as specialized dental health care professionals of tomorrow. They are trained to use latest in dental materials, advanced diagnostics and technology in patient management like surgical operating microscope, Lasers and Digital radiography. They learn to perform advanced esthetic restorative procedures under the able supervision of experienced academicians. Students are encouraged to innovate and pursue quality research as well as publish and patent their work.

Prosthodontics

Prosthodontics is the branch of dentistry responsible for the restoration and replacement of missing teeth. Prosthodontics is that part of restorative dentistry that offers care to patients who have significant damage to existing teeth, missing teeth, congenital defects and problems arising from trauma, neglect, or pathology, restoring the dentition to form, function, and aesthetics.

The Prosthodontics Department is responsible for teaching undergraduate students and postgraduate students in several areas: Fixed Prosthodontics, Removable Prosthodontics, Dental Laboratory Technology, Occlusion and TMJ Dysfunction, Dental Implants, Dental Ceramics, Maxillofacial Prosthodontics. The students understand value and apply evidence-based dentistry to the solution of patient's clinical problems.

Optimal oral health and esthetics are obtained for patients through the use of dental implants, dentures, veneers, crowns and teeth whitening. Through diagnosis, treatment planning, rehabilitation and maintenance, a prosthodontics can improve the oral function, comfort, appearance and health of a patient.

Orthodontics & Dento-facial Orthopaedics

The Department of Orthodontics and Dento-facial Orthopaedics excels in imparting quality education and delivering health care of the highest order. Equipped with state-of-the-art physical facilities, modern clinical equipment, and materials, highly experienced faculty, the department offers A to Z treatment modalities available in the field of Orthodontics.

The faculty and the PG students are involved extensively in the research, publications, and presentations at National and International forums. CDE and workshops are also conducted regularly. The department has received research grants from external agencies such as ICMR, BRNS and also from Nitte (Deemed to be University).

The social concern of the department is reflected in the services provided at 11 rural centers where PG s and the faculty are posted on an appointment basis.

The department deals with the treatment of patients with malocclusions and Dent facial deformities. This correction not only gives pleasing aesthetics, but also helps in psychological uplifting and boosting self-confidence. Department also deals with preventive and interceptive treatments helping to avoid major comprehensive treatments which may arise later.

Public Health Dentistry

Public health dentistry is a branch of specialization in dentistry which focuses on the overall oral health of the community. It plays a major role in disease surveillance, screening, policy making, tobacco sensation counseling, planning and evaluation of national health programs, biostatistics and research. Public health dental services play a major role due to lack of awareness about oral health and hygiene especially in the rural areas. The department is well equipped to carry out all kinds of public oral health programs, and outreach activates with oral health education programs in various institutions, primary health care centers, villages, community halls, public and private schools and industries through a well-equipped dental van. Outreach activities include camps, school oral health programs, satellite center and field visits. It also has a full-fledged dental health education museum where OPD patients are educated on a routine basis.

Oral Pathology & Microbiology

Oral Pathology & Microbiology is a specialty of dentistry that deals with the understanding of normal histology and anatomy of oral and para oral structures. It also encompasses the identification of diseases affecting head and neck regions using histopathological, cytology & various laboratory techniques. It also imparts knowledge & skills on Forensic Odontology.

It lays the foundation to the course of Dentistry and paves the way for learning for students. Multi-faceted approach for better understanding is achieved by involving the students in a variety of classes and didactic lectures, discussion, conferences, postings and clinical exposure. The department stands tall on its achievements and at the same time gels with the other specialties for perfect learning and patient service.

SPECIALTY CLINICS

TOBACCO CESSATION CENTER

The national tobacco control program cell calls for establishment of a tobacco cessation center in every District hospital for counseling people at these clinics. Thus, the institute has a tobacco cessation counseling center which takes effective measures to promote cessation of tobacco use and provide adequate treatment for tobacco dependence.

IMPLANT CLINIC

An active implant clinic is present at PDUDC and a large number of patients benefit from it. Dental implants are a common intervention for tooth loss. Dental implants have many esthetic benefits and play an important role in the overall functioning on the mouth.

COMPREHENSIVE AND SPECIAL NEEDS CLINIC

A comprehensive and special need dental clinic is functioning in the department of prosthodontics the idea is to provide a one stop clinic in the dental college for those patients who find it difficult to spend more hours in the campus for various dental procedures. This clinic also helps our interns posted in the clinic as they get exposure of a dental clinic where they need to provide all dental needs in the same place unlike the clinics in individual departments, and they also get to treat the patients from start to finish.

LASER CLINIC

LASER clinic is another speciality clinic available for patients care. The benefits of laser surgery ranges from great patient acceptance to better healing post-surgery.

ACADEMIC AWARDS AND ACHIEVEMENTS

Amruta Mahajan

MUHS gold medalist in pediatric and preventive dentistry in BDS final year examination 2020

Kausharaza Damri

1st rank in subject of Periodontics 2021

Vidya Randive

1st prize in paper presentation at PERIO VOGUE - ISP national UG convention, YMT dental college, Kharghar 2019

Undergraduates Awards & Achievements

Ketki Gujar

1st prize for scientific paper presentation at "Fathom 1.0" research in dental education state level dental student conference, GDC Nagpur, 2022

Shrutika Pandit

2nd prize for poster presentation at "Fathom 1.0" research in dental education state level dental student conference, GDC Nagpur 2022

Postgraduates Awards & Achievements

Dr. Kazi Abdulla Zakaria

3rd rank in M.D.S. final MUHS examination in OMDR 2019

Dr. Divya Kharat

3rd rank in M.D.S. final MUHS examination in Orthodontics 2019

Reshu Parmar

1st rank in M.D.S. final MUHS examination in Orthodontics 2020

Dr. Aneri Gosavi

1st prize in E-poster at 6th ISP- MSG Convention & ISP Colloquium 2019, GDC Mumbai

Dr. Neha Asole

2nd prize in Quiz competition at Kaleidoscope – A virtual conference 2020

Dr. Vasundra Bandagi

1st prize in paper presentation at national IAOMR PG convention, Vijaywada 2018

2nd prize paper presentation National triple O Symposium, Mumbai 2019

Dr. Praneita Gangji

National winner in “Sculpt & Win” Anterior Aesthetic Case Competition 2019

Dr. Rashmi Rokade

3rd prize for paper presentation
at ICDRP 2020 online
conference

Dr. Rutuja Ghoghrey

1st prize for poster presentation
at 19th ISP PG convention 2021

Dr. Ashwini Gavali

2nd prize for paper presentation
at 7th ISP – MSG group 2021

Dr. Karishma Patil

1st prize for paper presentation
at 22 IACDE national PG
convention, Rajahmundry 2022

Dr. Sachin Dongare

2nd prize for poster presentation
at 22 IACDE national PG
convention, Rajahmundry 2022

Dr. Nikhil Yengure

2nd prize for poster presentation
at 22 IACDE national PG
convention, Rajahmundry 2022

Dr. Shubhangi Kadam

3rd prize for poster presentation
at 22 IACDE national PG
convention, Rajahmundry 2022

Dr. Santosh Dixit

- Chaired the key note lecture at 46th IPS Conference, Mangalore 2018
- Awarded fellowship of the international congress of implantology, Cochin 2022
- Conducted a lecture on "Prosthodontics basics to future trend "at DY Patil Dental college, Pune 2022

Dr. Abhay Kulkarni

- 2nd prize at MUHS state level research competition 2018
- 1st prize for paper presentation at ICDRP 2020
- 2nd prize for poster presentation at ICDRP 2020
- Best Article Award (Original Research Category) by Dr. A.K. Bhoweer JIOMR 2021
- Best Research at 4th International Conference on Dentistry and Oral Health Kualalumpur Malaysia 2022

Dr. Jyoti Chidgupkar

- Awarded "Empress Award" by Women Doctors Wing of IMA Maharashtra State 2022
- Received President's special appreciation award by IMA, Mumbai west branch at Mastacon 2021
- Awarded trophy of commendation as a corona warrior by Sanskaryukta Jivanlakshi Shikshanvistarak Bahuudeshiya Sangh, Solapur, 2020

UNMASK THE UNSEEN

The Dept. of Oral & Maxillofacial pathology & microbiology had arranged a program on 24th and 26th of February in the premises of Pandit Deendayal Upadhyay Dental College & Solapur named “UNMASK THE UNSEEN”.

A small program was held for all the undergraduate students of the college of all years along with the teaching staff. On 24th the event began by the addressing speech by our principal, followed by a speech by our Vice Principal madam. They both spoke on importance of Pathology as a distinct dental specialty. Hematoxylin & eosin color was the color theme of the program.

Renowned guest speaker Dr. Shailesh Pate was invited as the speaker of the day who spoke on Pathologies in Oral region.

After lunch rangoli competition was arranged in the department of oral pathology for the 3rd year students on the topic lesions in oral pathology.

The next day included lectures by the faculty of Oral Pathology Dr. Noopur M K who spoke on importance of oral pathologist “Opinion matters” & Dr. Roshini Vinod spoke on History of pathology and the rise of Oral Pathology.

Post lunch was soap carving competition arranged for the 1st year students, followed by prize distribution of both the rangoli and soap carving.

Thus, Oral Pathology Day was celebrated with great zeal & enthusiasm.

Outcome:

- The lectures were very informative a brief of all important pathologies was indeed a brush up of the 3rd year syllabi.
- The talk on “Opinion matters”, made us realize the importance of histopathology in treating and predicting the prognosis of the patient.
- The talk on “History of pathology and the rise of Oral Pathology’, took us through the ancient time when pathology began and the hurdles, we underwent to bring it to the present scenario. Beginning of oral pathology, a sub branch of pathology and the reason of celebrating oral pathology day was also highlighted.

BASIC OF ROTARY ENDODONTICS

Department of conservative dentistry and endodontics conducted a program on 23 and 24th on March 2022 with a lecture com hands on course on basics of rotary endodontics. The event was conducted under the banner of IACDE @40. The course fee was 1500/ head, the participants comprised of interested interns, ex-students, pgs., faculty and private clinicians. The lectures were held in lecture hall no 1 and the hands on were in the conservative department. Inauguration and cake cutting took place at the hands on our principal Dr. Birangane sir and Dr. Bakale. Dr. Birangane gave a lecture on root canal treatment then and now and spoke about the evolution of root canal treatment from hand held reamers and files and conventional hand pieces to state of the art rotary endomotor and apex locator and RVG, every one appreciated the humor in his lecture. This was followed by a session by Dr. Bakale who explained in detail about the basics of rotary endodontics and its importance in current day to day practice. He talked about the current dos and don'ts of rotary endodontics. This was followed by a question answer session which continued throughout the afternoon. The second day involved demonstration and hands on of biomechanical preparation in batches. The candidates were provided with a set of free rotary files. The demonstrations were carried out by Dr. Srivivas Bakle, Dr. Nikhil Hatte, Dr. Rohini Pawar, Dr. Shreya Patil. The event concluded with distribution of certificates issued by IACDE. The program was successful and received good feedback from the participants

Outcome:

The lectures and hands on were all very informative and helpful in our day-to-day dental practice.

DENTAL IMPLANTS -AN EPITOME IN CLINICAL DENTISTRY

The department of prosthetics crown and bridge and implantology PDU dental college in association with IDA Solapur Indian prosthodontics society Pune branch organized a CDE program on 24th and 25th April titled “Dental implants –An epitome in clinical dentistry”. The program was held in the auditorium of Punyashlok Ahilyabai Holkar university Solapur. Inauguration was done in the hands of Dr. VB Patil pro-vice chancellor Solapur University was the chief guest. The session began with very interesting cases presented by Dr. Santosh Dixit (prof. & HOD) titled dental implant in varies clinical scenarios, this was followed a by lecture on dental implant in anterior esthetic zone by Dr. Vikram Rathod (associate professor). The afternoon session was initiated by Dr. Varun Deshpande (associate professor) who spoke on immediate dental implants; this was followed by a lecture by a senior PG Dr. Vaishnavi Tambake, about impressions in dental implants. The day ended with an inter-disciplinary lecture regarding periimplantitis and endodontics by Dr. Vidhi Kevadia. The next day began with some interesting demonstrations by Dr. Santosh Dixit on basic implant placement in Styrofoam models and methods of making implant impression. The program was successfully attended by privet practitioners, post-graduates, faculty and interns.

OUTCOME:

The program was very information for clinical practice as dental implants was not only discussed but demonstration and case discussion were also done.

LASERS AND ITS APPLICATION IN SOFT TISSUE SURGERIES

Department of Periodontology and oral implantology of PDU Dental College, Solapur, had organized a scientific program "LASERS and its applications in soft tissue surgeries" on Wednesday, 25 May 2022 and Thursday, 26th May 2022 in lecture hall 1. The program was conducted under the guidance of Dr. Mona Shah (Prof. and HOD Department of Periodontics) and Dr. Yogesh Doshi (Prof. and PG Guide, Department of Periodontics). Interesting lectures on LASER and Its applications were delivered by Postgraduate students of Department of periodontics on various topics

- LASER-physics - Dr. Rutuja Ghorgrey.
- Applications of laser in periodontics- Dr. Prajakta Babhale
- Low level laser therapy - Dr. Khushboo Bansod
- Photodynamic Therapy - Dr. Dhanshree MorePatil
- LASER assisted surgical case videos done in the department - Dr. Sneha Rathod

Next day included demonstrations of laser assisted surgeries like frenectomy, gingivectomy, depigmentation, operculectomy were performed by Dr. Yogesh Doshi for the benefit of the interns.

Post lunch the interns were allowed to perform simple surgical case with Lasers under supervision.

The program was attended by staff, PGs students, and interns of PDU Dental College, Solapur and received a great response and very good feedback which helped in making the event successful.

OUTCOMES

- At the end of this course, the participant will have a basic understanding of Laser Therapy.
- The student will be motivated regarding the benefits of laser therapy and will be interested to perform clinical procedures in their practice

Voter's Day

On 25th January 2022, the institution celebrated National Voters Day and held a talk by the principal Dr. Rajendra Birangane on the importance and right to vote for all those above the age of 18 years. Since 2011 National Voters Day has been celebrated on January 25th every year, all across the country to mark the foundation day of the Election Commission of India i.e., 25th January 1950. The main purpose is to create electoral awareness amongst citizens and encourage them to participate in the electoral process. Dedicated to the voters of the country the National Voters Day is also used to facilitate enrolment of voters especially the newly eligible young voters. New voters are selected and handed over their Elector Photo Identity Card. Messages such as “Your vote is your right, your voice “and “Don’t be a quitter be a voter” were displayed on the placards that the students held during the program. The talk also conveyed the responsibilities of the young adults toward their country. The talk was attended by the second year students who had just completed 18 years of age as well as faculty and non-teaching staff.

What after BDS?

The actual purpose of education is to believe the student to meet challenges in life. Being a good dentist Mastering dental skill involves not only mean acquiring knowledge but also the right professional attitude, stability and development of communication skills. The idea is to guide the students they can do the attain success with the knowledge and skills they have acquired in the 5 years of graduation this dental course. Keeping this in mind PDUDC have arranged a programe to guide their students on the various career opportunities available after acquiring a dental under graduation degree. A programme was conducted on 13th April 2022 for the interns and final.

The speaker Dr. Denzy Lawrence, reader in Dept. of PHD, spoke about various option which a student could follow namely, fellowship in various colleges abroad, about the availability MDS seats in India, how to do self-analysis and self-study in internship, available options in army like dental cops, how to enhance the dental practice by setting up dental clinics etc it was also mentioned how to enhance our hobbies and use it as business

The talk followed a question answer session where queries of various student answered by the speaker.

Hepatitis & Stress management

In honor of world hepatitis day, a program was arranged by the department of PHD on 27th and 28th July 2021 named “Hepatitis and stress management”. The program began with a lecture by Dr. Birangane on viral hepatitis where he stressed on the life threatening disease hepatitis b which affects the liver having similar symptoms like jaundice in the initial stages. He also spoke of hep. c, which constitutes a major public challenge. He stressed on vaccination and its importance especially birth dose for hepatitis b, and safety in health care providers especially as dentist. He also spoke on the protocol for post exposor prophylaxis. The Dr. Abhay Kulkarni spoke on preventive measures for viral hepatitis and the importance of water sanitization and hygiene he also cautioned about needle stick injury and stressed on the importance of early prophylaxis. Dr. Jyoti Chidgupkar spoke about the microbiological test for diagnosis of the various hepatitis types.

Day 2 began with a lecture on mental health and stress management by Dr. Sampada Anvekar neuro physchatric of repute from Solapur. She spoke on importance of mental health and myths and facts about depression. She followed it with a discussion on stress and how it affects our mental health. She talked about the prevention and treatment of stress which included foods that reduced stress, engaging in hobbies, practicing relaxation techniques, exercising regularly and having a good support system. She also emphasized on the importance of yoga and meditation.

Outcome:

Being in the dental profession we are the most exposed to hepatitis B as we are dealing with patient saliva on a daily bases thus knowing the prevention measures and prophylaxis of hepatitis is mandatory as its life threatening. A discussion on stress and how it affects our mental health is the need of the hour as we face many students/ staff calming to be in depression, it’s important to know to deal with them and motivate them to get the best out of them.
