REPORT

BASIC WORKSHOP ON RESEARCH METHODOLOGY AND BIOSTATISTICS

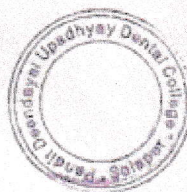

As per the MUHS/IMETTT guidelines Basic workshop on "Research Methodology and Biostatistics" for PG students and PG teachers was organized in Pandit Deendayal Upadhyay Dental College, Solapur on 16th, 17th and 18th August 2017. The proposal and programme schedule was approved by MUHS/IMETTT ref no 1124/2017 dated 23.07.2017.

Chief Guest for the programme was Dr. Shubhalaxmi Kotnis, Associate professor Dept. of Community Medicine, Dr.V.M. Medical College, and Solapur. Programme was previewed by Dr.Meena Kashetty, Head of the Department, Public Health Dentistry, PDUDC, Solapur and Dr. Kishore Sonawane, Head of the Department, Oral Pathology and Microbiology, PDUDC, Solapur. All the head of the departments and faculty members of the PDUDC institution were personally invited.

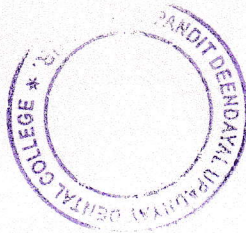

On 16th August postgraduate students and faculty members of all the departments of PDUDC assembled at lecture hall. Inaugural function began at 9.30 AM with a welcome speech by a PG student followed by lighting a lamp by chief guest.

As per the schedule submitted to IMETTT all the topics of the workshop were covered by the respective guest speakers. Total of 46 members participated in the workshop including PG students and teachers. Among 46 participants, 26 participants were faculty members and 20 were PG students. Participants were divided into 5 groups and all actively participated in the group activity during the three days workshop.

Pre-test was conducted among the participants immediately after the inaugural function. Daily feedback form for each day were filled by all the participants and program evaluation form were collected after completion of the workshop followed by the post-test. The feedback was very encouraging. Most of the participants found the programme very informative and recommended to conduct such programme in future.

REPORT

A scientific deliberation seminar on **Dental Ergonomics**^{was} conducted in Lecture Hall no: 1 on 6th October 2017. Dr Vikram Rathod Associate Professor Dept of Prosthodontics and Oral implantology, began a lecture by a brief description of the meaning of Dental Ergonomics in dentistry namely preventing musculoskeletal problems by enabling the dentist to adopt a more natural and comfortable posture, achieving patient-friendly treatment, improving treatment efficiency, and achieving treatment accuracy. According to him the successful application of ergonomics assures high productivity, avoidance of illnesses and injuries, and increased satisfaction among workers. Unsuccessful application, on the other hand, can lead to work-related musculoskeletal disorders (MSDs). In this regard care should be taken that the treatment environment with the patient chair, dental unit, operating light, dynamic and hand instrumentation, cabinetry and peripheral equipment must be flexible. Dentists need to adapt and guarantee good working postures, sufficient lighting and easy access to required instrumentation and materials for different working practices, clinical procedures and patient types. He elaborated the problem and MSD's namely lower back pain, upper back pain, tendonitis, carpal tunnel syndrome etc. He concluded by saying that Dentistry does not lend itself to good posture; however, it is possible with instruction and practice to correct the harmful postural habits that may be the cause of such stress and pain.

Outcome of the program:

1. Generated awareness about Dental Ergonomics and work related MSDs .
2. The students understood that Dental professionals are prone to unique muscle imbalances and require special exercise and ergonomic interventions to maintain optimal health during the course of their career.

REPORT VA1819 H5FL4

A program was conducted by the institute for the students, teaching and non-teaching staff on how to manage stress and have a happy life. The program started with an inaugural function arranged by the student committee members followed by an enlightening lecture by Sri Acharya Kripamayanda Avdhut.

The lecture followed discussions on the way of life, positive environment and importance and ways to attain peace in a stressful life. The next day he emphasized on correct breathing techniques, different relaxation asana and their importance.

Outcome:

As we are dealing with various stresses in our day to day life, this program helped us to calm the anxious mind and gain focus on efficient working.

Report

Dental Materials

Dr Varun Deshpande Associate Professor Dept of Prosthodontics and Oral Implantology

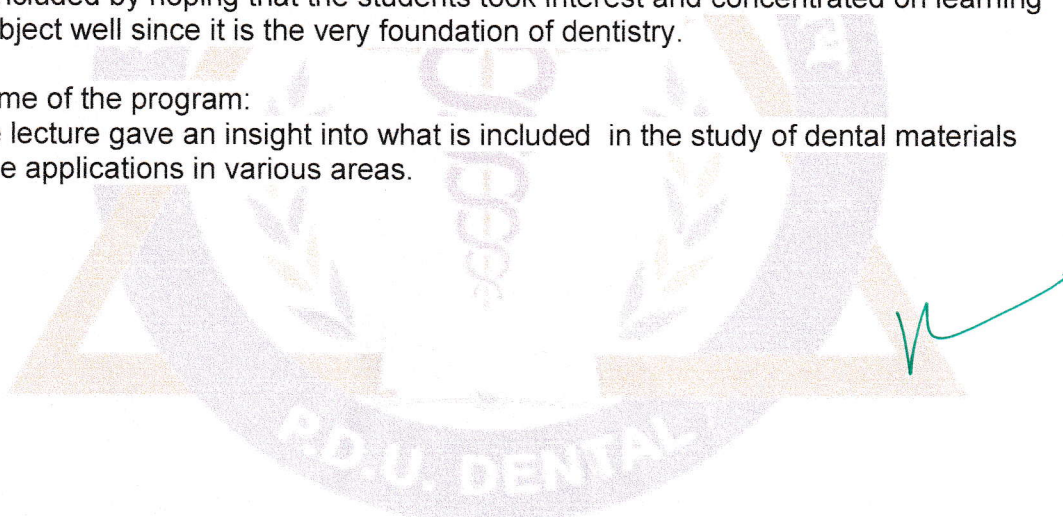

To begin with Dr Varun explained that Dental Materials is a subject that provides an introduction to dental materials in the oral environment. He further explained that from this knowledge base, students learn to understand the role of dental materials in the delivery of preventative and restorative care. The composition, properties, and manipulation of materials used in dentistry, as well as procedures used during application are emphasized. He then gave a brief introduction about the topics that would be covered during the entire year.

Topics include: dental material standards; dental materials properties; direct and indirect restorative dental materials; preventive dental agents; impression materials; gypsum products; mouth guards and whitening systems; dental bases, cements, and liners; temporary restorations; polishing procedures for dental restorations; fixed and removable dental prostheses; sealants; implants; adjunct dental materials etc.

He concluded by hoping that the students took interest and concentrated on learning the subject well since it is the very foundation of dentistry.

Outcome of the program:

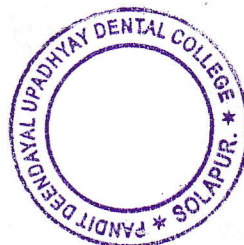

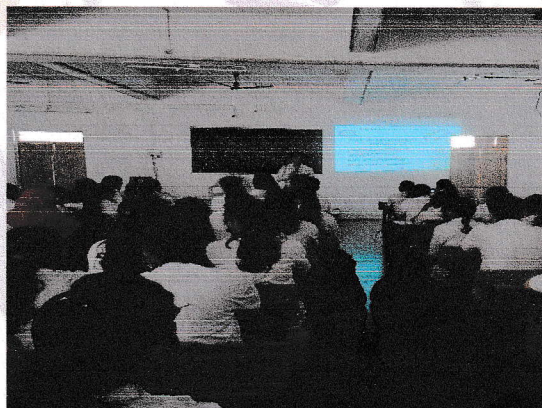

1. The lecture gave an insight into what is included in the study of dental materials and the applications in various areas.

Event report

Name of the programme: Self discipline

Speaker: Dr. Varun Deshpande

Contact hours: 10am to 4pm

Place: lecture hall no. 1

Coordinator: IQAC

Details of the programme:

A programme on the Self discipline was conducted on this date 23rd december 2018 in lecture hall no 1. PDUDC mainly for teaching and nonteaching faculty. by Dr. Varun Deshpande, Assis. Prof. of the Department of Prosthodontics and oral implantology. He began his lecture by explaining the significance of self discipline in life as well as at the workplace. He explained that self discipline allows to one to stay focus on ones goals. It enable to stay in control on ones own zone. Self discipline is like muscle the more it istrained, stronger the person become. Lack of self discipline results in low self esteem. This was followed by an interactive secession where group task was performed.

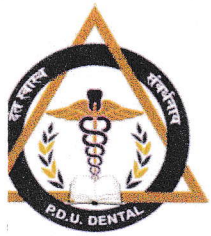

The programme ended on enthuseastic mode

Outcome of the programme:

The audience became aware of the importance of the self discipline in life as well as at the workplace.

REPORT VA18191C6

A program on infection control was arranged by the Department of Microbiology for the final years students, Post graduate students, nursing staff and attendants of the institution. The program was conducted over two days, dated **19/12/2018 and 20/12/2018** the program on the 1st day started with an inauguration with lighting of lamp and Sarusvathi vandana song by the student council members. The inauguration followed with talk on “**Cross contamination of infection in dental clinic**” by our guest speaker Dr.Virendra Kashetty, Microbiologist & Head Of Department of Microbiology, Ashwini medical college, Solapur. Sir emphasized on fact that cross contamination is high dental clinic and put forth the various ways and method we can use to avoid transfer of infection. The next talk was by the Dr.Chidgupkar madam on sterilization and disinfection of dental instruments, followed by demonstration of various sterilization methods like heat autoclave, hot air oven, glass bead sterilizer etc. on the next a talk was taken by ma'am on biomedical waste management were segregation storage and safe disposal of waste was discussed.

Outcome:

Cross contamination, infection and improper biomedical waste management can adversely affect health inviting serious implications to the health care workers, so it was the need of the hour to educate the new batches who have entered the clinics. Thus, helping them to practice safe dentistry.

HASYA YOGA REPORT

A program was conducted by the institute for the students, teaching and non-teaching staff on 29th January. The program started at around 10am at lecture hall no. 1 with a welcome speech and addressing the speaker by Dr. Vidhi. This was followed with lightning the lamp and honouring the speaker Dr. Sushma Dugad and co –speaker Dr. Chidgupkar. The principle then gave a brief into on importance of a healthy living and contribution of yoga to live a healthy life. Dr. Sushma Dugad then enlightened us on the effect of laughter on general health. Examples where given how laughter help in improving sleep disorders, lowered anxiety and depression of individuals and thus promoted their social function.

OUTCOME:

The talk was very effect for the audience as it emphasized on importance of laughter in dealing or coping with day to day stress.

REPORT

A capability enhancement work shop on Tackling the obstacles- Language Barrier was organized on 7th February 2019 in Lecture Hall no: 1 at PDUDC. The speaker for the talk was Dr Mona Shah Professor and Head Dept of Periodontology. After the introduction of the speaker by the Principal Dr Birangane, the talk began with a discussion about the difficulties faced by many students to cope up with the English language as they were more comfortable and at ease speaking in their mother tongue and how dealing with the language obstacle was a challenge for them. The speaker then gave some important and practical tips and suggestions so as to guide the students during their presentations and build up their confidence facing viva's in the university examinations. She also encouraged the students to develop the habit of reading aloud so as to gain proficiency over the English language. It was a well organized program which concluded with a vote of thanks .

Outcome of the program:

- 1.Helped in confidence building of those students who were not so proficient with the English language.
- 2.Students received important tips and suggestions to gain confidence during oral examinations.

REPORT

VA1819TMDSD7

A program on TMDS occlusal problems and its management was arranged by the Department of Oral Medicine for the registered final years, interns, post graduate students and staffs on 13th and 14th of February 2019. The lecture started with Dr. Abhay Kulkarni addressing the speaker Dr. Avinash Kshar professor and HOD VPDC Sangli. Sir spoke on introduction and diagnosis of TMDS, occlusal problems and its management. He discussed the differential diagnosis and emphasis on myofascial pain dysfunction syndrome. The various types of splints was discussion, later post lunch sir demonstrated making and use of splints on dummy model. On the next day two cases of TMJ disorder was discussed and case history taking was given emphasize. Various radiographic methods were also educated for the same.

Outcome:

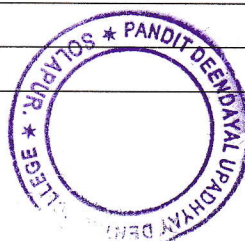

This program helped the participants to diagnose and treat pain related to head and neck of unknown origin. As In our day to day clinical practice we come across patients with pain in head and neck region of unknown origin, this lecture and hands on was useful to go about the same.

PPE and Covid 19 guidelines

Event Report

Name of the program:

Training on PPE donning and Covid 19 Guidelines

Date: 19th august 2020

Speaker: Dr Yogesh Doshi

Place: Lecture Hall no:1

Contact hours: 10am to 4pm

Coordinator: Infection Control Committee

Details of the program:

An infection control programme on Training on PPE donning and Covid 19 Guidelines was organised in Lecture Hall no:1 at PDUDC on 19th august 2020 The speaker was Dr Yogesh Doshi Associate Professor Dept of Periodontology.

After the inauguration at the hands of the Principal Dr Birangane the speaker began the session with an introduction about the Covid 19 pandemic and the precautions to be taken in its wake. He briefed about the appropriate and necessary use of personal protective equipment (PPE) which would reduce a health care worker's likelihood of getting infected with the virus as well reduce chances of secondary spread. He explained that OSHA recommends that healthcare workers with exposure to suspected or confirmed COVID-19 patients wear: Gloves. Gowns. Eye/face protection (e.g., goggles, face shield) and N95 masks.

He also explained about the importance of adhering to the Covid 19 guidelines in wake of the pandemic.

The session concluded with a vote of thanks.

Outcome of the program:

1. Stressing on need for PPE for all contact Healthcare workers .
2. Underlining the necessity of adhering to Covid 19 guidelines in the pandemic.

REPORT

VA2021R13

This year we celebrated the 125th world day of radiography on 9th and 10th nov 2020. It marked the anniversary of Wilhalm Congen's discovery of X rays, which led to the production of 1st radiographs.

1. Exhibition was arranged on black and white photography
2. Dr. Birangane gave an informative lecture on justification of radiographical procedures and optimization of patients and worker's protection.
3. A talk on recent radiographic techniques and procedures like computer tomography MRI mammography etc. was given by Dr. Abhay Kulkarni.
4. This was followed by an enlightening talk on errors in reading radiography's by Dr. Rohan Chaudhary.
5. On the next day there was a lecture cum hands -on on how we make radiographs
6. Followed by a detailed talk on radio-visiography by Dr. Supriya Sankpal

The lunch was followed by cake cutting and prize distribution for essay writing and photography.

OUTCOME:

This event enlightened us with the latest machines in the field on radiology; help us with easy way of interpretation of xrays. The hands on was a revision to the students working in clinics. We also had many participants for the essay and photography competitions, which was a success.

Event report

Name of the programme: Interpersonal relationships.

Speaker: Dr. Rajendra Birangane

Contact hours: 10am to 4pm

Place: lecture hall no. 1

Coordinator: IQAC

Details of the programme:

A work shop on the interpersonal relationship was conducted on this date 7th December 2020
In lecture hall no.1

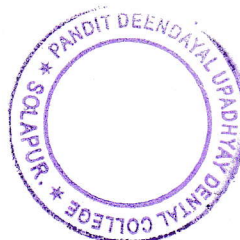

PDUDC mainly for teaching and nonteaching faculty by Dr. Rajendra Birangane, head of the Department of Oral medicine and radiology. Began his lecture by explaining the meaning of the teaminter personal relationship which referes to a social connection, association, interaction and bond between two or more people. He went on explaining types of relationships such as family relationships, friendships, acquaintance and the romantic once. With respect to college it involves the individuals working together in same institute, in the same department and in the same team. He stressed at interpersonal relationships are important for our overall physical and emotional happiness and also gives you a sence of purpose in personal life. They are you support for life.

Thus he called upon both teaching and nonteaching staff who developed and maintain effective relationship between them. The programme ended up with vote of thanks.

Outcome of programme.

The audience understood the importance of the good interpersonal relationship which helped in

keeping positive environment in department.

REPORT

A lecture was conducted on Awareness of sterilisation and disinfection measures by Dr Jyoti Chidgupkar faculty and Professor Dept of Microbiology on 12th January 2021 at 10 am. The lecture was to create awareness on sterilisation and disinfection measures among the non teaching staff. The non teaching staff understood the importance of sterilising instruments and also disinfection of equipment in their respective departments thus preventing cross contamination. The proper usage and maintenance of the autoclave was also explained. Using PPE whenever necessary and proper disposal of bio medical waste was also discussed.

Outcome of the program:

1. The non teaching staff understood the importance of proper sterilisation and disinfection.
2. They also understood the proper working of the autoclave and how maintenance of aseptic environment and equipment was beneficial to all.

Event Report:

Awareness on Covid 19 safety Protocols

Date: 28th january 2021

Speaker: Dr Ranjit Gandhi

Place: Lecture Hall no 1

Contact hours – 10am to 4pm

Coordinator: Infection Control Committee

Details of the program

An informative lecture for spreading awareness of the Covid 19 safety Protocol amongst the non teaching staff was conducted by Dr Ranji Gandhi Sr. Lecturer Dept of Oral and Maxillofacial Surgery on 28th january 2021 at 10.30 am in Lecture Hall no: 1 at PDUDC.

Dr Ranjit introduced the topic and explained about the cause, course and nature of the Covid 19 viral disease. He stressed the need for taking necessary precautions while working in their respective departments to prevent cross contamination and spread. Procedures such as donning, doffing, using sanitizers often, proper waste disposal, quarantine and isolation were explained to the non teaching staff.

Outcome of the program:

1. The non teaching staff learnt about the infection and it's consequences and the necessary precautions to be taken in its wake.
2. They understood need for disinfection and sterilisation and self protection.

REPORT

VA2021CTDM14

A value added program on "Critical thinking and Decision making" was arranged by the Department of Public health on 5th and 6th February 2021. The 1st lecture was by Dr.Meena Kashetty on concept of critical thinking, the 2nd lecture was on critical thinking skills was by Dr.Sagar Kumbhar elaborated on the 5 main critical thinking skills namely, observation, analysis, inference, communication and problem solving. This was followed by an interesting lecture on critical thinking questions with examples and answers by Dr.Varun Deshpande. The next day started with a lecture on 'Evidence based dentistry' by Dr.Birangane, followed by a talk on importance of informed consent and shared decision making. The afternoon session involved and Q and A session and role play.

Course outcome:

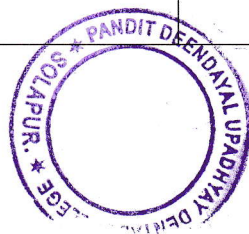

This event enlightened us with the importance of observation, analysis, decision making skills and problem solving, which we come across in our daily practice.

REPORT

And informative lecture on Informed consent & consumer act was arranged on 2nd April 2021 In lecture hall no. 3 PDUDC. The lecture was inaugurated by the hands of the principle Dr. Birangane who the introduced Dr. Sagar Kumbhar Assist. Prof. Community dentistry. The speaker first defined the consumer protection act 1996 as a generous social legislation that laid on consumer sees to the promotion and rights of the consumer. He then went on to explain the objectives of acts and rights of the consumers. All dental practitioners and all private hospital who charge patients are liable. He then elaborated on procedures and time limit. He discussed the common allegations brought against dental members like slippage of instruments, broken needles, roots left in the sockets, respiratory blockage, ill-fitting denture and infection from unsterile instruments. He also talked on 2019 amendment to the act and new regressed system.

Lecture concluded with vote of thanks

Outcome of the programme.

The audience understood need to be more responsible, attentive and remain up-to-date to serve the society in more effective and efficient manner.

REPORT VA2122HSM18

In honour of world hepatitis day, a program was arranged by the department of PHD on 27th and 28th July 2021 named "Hepatitis and stress management". The program began with a lecture by Dr. Birangane on viral hepatitis where he stressed on the life threatening disease hepatitis B which affects the liver having similar symptoms like jaundice in the initial stages. He also spoke of hepatitis C, which constitutes a major public health challenge. He stressed on vaccination and its importance especially birth dose for hepatitis B, and safety in health care providers especially as dentist. He also spoke on the protocol for post exposure prophylaxis. Dr. Abhay Kulkarni spoke on preventive measures for viral hepatitis and the importance of water sanitization and hygiene he also cautioned about needle stick injury and stressed on the importance of early prophylaxis. Dr. Jyoti Chidgupkar spoke about the microbiological test for diagnosis of the various hepatitis types.

Day 2 began with a lecture on mental health and stress management by Dr. Sampada Anvekar, reputed neuropsychiatric from Solapur. She spoke on importance of mental health and myths and facts about depression. She followed it with a discussion on stress and how it affects our mental health. She talked about the prevention and treatment of stress which included foods that reduced stress, engaging in hobbies, practicing relaxation techniques, exercising regularly and having a good support system. She also emphasized on the importance of yoga and meditation.

Outcome:

Being in the dental profession we are the most exposed to hepatitis B as we are dealing with patient saliva on a daily basis thus knowing the prevention measures and prophylaxis of hepatitis is mandatory as it is life threatening. A discussion on stress and how it affects our mental health is the need of the hour as we face many students/ staff coming to be in depression, it's important to know to deal with them and motivate them to get the best out of them.

REPORT

In view of the institution opting for the NAAC process, a lecture on 'Newer Methods of Teaching And Learning' was organised for the faculty and interns at PDUDC Lecture Hall no: 1, on 12th October 2021. The lecture was conducted by Dr Mona Shah Professor and Head Dept of Periodontology. After the inauguration at the hands of the Principal Dr Birangane, At the start the speaker explained the three basic types of learning and how best they can be used. Visual included using graphs, charts, illustrations, or other visual aids and elimination of potential distractions. Auditory which included reading aloud and explaining and summarising verbally and lastly kinaesthetic allowing the use of movement. She then explained the different teaching methods with examples including experiential methods, participative, problem based, project based, personal, role play etc. She also explained how lectures could be either normal with only a talk by the teacher, or with a talk followed by a Q & A session or Flipped where no lecture is taken but the topic is covered by group discussion or quiz. The program ended with a vote of thanks and was much appreciated.

Outcome of the program:

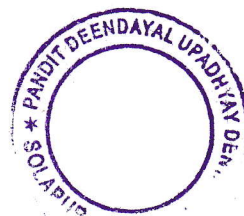

1. Teachers gained and insight into newer teaching and learning methods.
2. Teachers were motivated to put the same into practise for more interactive teaching and better understanding by the students,

REPORT VA1718WH2

A program was been held on awareness of women's health issues "KNOW YOUR BODY-SPEAK TO AN EXPERT" the objective of the program was to raise awareness about women health in relation to various gynaecological problems and to provide insights into managing their body better. Dr.Anjali Chitnis senior gynaecologist was the resource person for the session. She spoke about common gynaecological issues faced by young women like PCOD, irregular menstruation, thyroid problems and fertility issues.

Her next talk cover different gynaecological diseases such as bacterial and fungal infections, cancer of ovaries, breast, cervix etc this was followed by question answer section.

The day two consisted of a talk by the eminent gynaecologist Dr. Minal Chidgupkar on how the need of the hour was to save environment and get into the habit of using alternate environment friendly measures during menstruation like menstrual cups and period pants.

Outcome:

It gave us knowledge on the importance of keeping us women healthy, giving an insight on various health problems we face and how it can be detected early. The program also helps us with how to go about a problem once occurred.

REPORT VA1819 H5FL4

A program was conducted by the institute for the students, teaching and non-teaching staff on how to manage stress and have a happy life. The program started with an inaugural function arranged by the student committee members followed by an enlightening lecture by Sri Acharya Kripamayananda Avdhut.

The lecture followed discussions on the way of life, positive environment and importance and ways to attain peace in a stressful life. The next day he emphasized on correct breathing techniques, different relaxation asana and their importance.

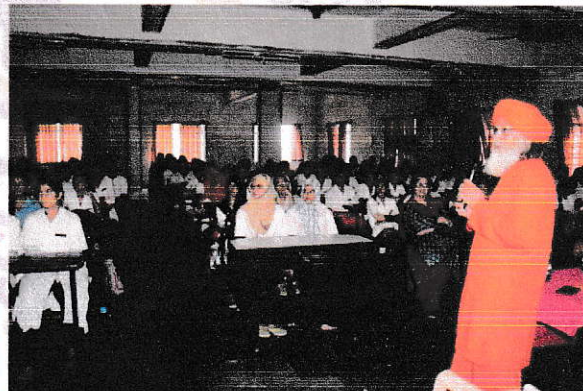

Outcome:

As we are dealing with various stresses in our day to day life, this program helped us to calm the anxious mind and gain focus on efficient working.

REPORT

VA18191C6

A program on infection control was arranged by the Department of Microbiology for the final years students, Post graduate students, nursing staff and attendants of the institution. The program was conducted over two days, dated **19/12/2018 and 20/12/2018** the program on the 1st day started with an inauguration with lighting of lamp and Sarusvathi vandana song by the student council members. The inauguration followed with talk on **"Cross contamination of infection in dental clinic"** by our guest speaker Dr.Virendra Kashetty, Microbiologist & Head Of Department of Microbiology, Ashwini medical college, Solapur. Sir emphasized on fact that cross contamination is high dental clinic and put forth the various ways and method we can use to avoid transfer of infection. The next talk was by the Dr.Chidgupkar madam on sterilization and disinfection of dental instruments, followed by demonstration of various sterilization methods like heat autoclave, hot air oven, glass bead sterilizer etc. on the next a talk was taken by ma'am on biomedical waste management were segregation storage and safe disposal of waste was discussed.

Outcome:

Cross contamination, infection and improper biomedical waste management can adversely affect health inviting serious implications to the health care workers, so it was the need of the hour to educate the new batches who have entered the clinics. Thus, helping them to practice safe dentistry.

Event report

Name of the programme: Self discipline

Speaker: Dr. Varun Deshpande

Contact hours: 10am to 4pm

Place: lecture hall no. 1

Coordinator: IQAC

Details of the programme:

A programme on the Self discipline was conducted on this date 23rd december 2018 in lecture hall no 1. PDUDC mainly for teaching and nonteaching faculty. by Dr. Varun Deshpande, Assis. Prof. of the Department of Prosthodontics and oral implantology. He began his lecture by explaining the significance of self discipline in life as well as at the workplace. He explained that self discipline allows to one to stay focus on ones goals. It enable to stay in control on ones own zone. Self discipline is like muscle the more it is trained, stronger the person become. Lack of self discipline results in low self esteem. This was followed by an interactive secession where group task was performed.

The programme ended on enthuseastic mode

Outcome of the programme:

The audience became aware of the importance of the self discipline in life as well as at the workplace.

PPE and Covid 19 guidelines

Event Report

Name of the program:

Training on PPE donning and Covid 19 Guidelines

Date: 19th august 2020

Speaker: Dr Yogesh Doshi

Place: Lecture Hall no:1

Contact hours: 10am to 4pm

Coordinator: Infection Control Committee

Details of the program:

An infection control programme on Training on PPE donning and Covid 19 Guidelines was organised in Lecture Hall no:1 at PDUDC on 19th august 2020 The speaker was Dr Yogesh Doshi Associate Professor Dept of Periodontology.

After the inauguration at the hands of the Principal Dr Birangane the speaker began the session with an introduction about the Covid 19 pandemic and the precautions to be taken in its wake. He briefed about the appropriate and necessary use of personal protective equipment (PPE) which would reduce a health care worker's likelihood of getting infected with the virus as well reduce chances of secondary spread. He explained that OSHA recommends that healthcare workers with exposure to suspected or confirmed COVID-19 patients wear: Gloves. Gowns. Eye/face protection (e.g., goggles, face shield) and N95 masks.

He also explained about the importance of adhering to the Covid 19 guidelines in wake of the pandemic.

The session concluded with a vote of thanks.

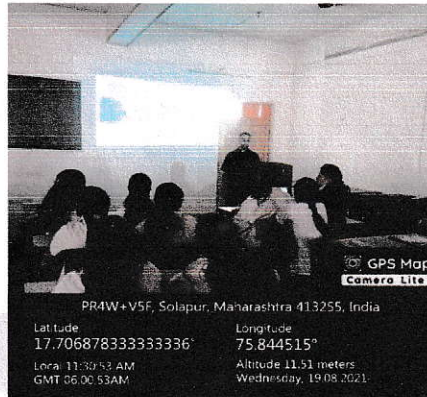

Outcome of the program:

1. Stressing on need for PPE for all contact Healthcare workers .
2. Underlining the necessity of adhering to Covid 19 guidelines in the pandemic.

Event report

Name of the programme: Interpersonal relationships.

Speaker: Dr. Rajendra Birangane

Contact hours: 10am to 4pm

Place: lecture hall no. 1

Coordinator: IQAC

Details of the programme:

A work shop on the interpersonal relationship was conducted on this date 7th December 2020 In lecture hall no.1

PDUDC mainly for teaching and nonteaching faculty by Dr. Rajendra Birangane, head of the Department of Oral medicine and radiology. Began his lecture by explaining the meaning of the teaminter personal relationship which referes to a social connection, association, interaction and bond between two or more people. He went on explaining types of relationships such as family relationships, friendships, acquaintance and the romantic once. With respect to college it involves the individuals working together in same institute, in the same department and in the same team. He stressed at interpersonal relationships are important for our overall physical and emotional happiness and also gives you a sence of purpose in personal life. They are you support for life.

Thus he called upon both teaching and nonteaching staff who developed and maintain effective relationship between them. The programme ended up with vote of thanks.

Outcome of programme.

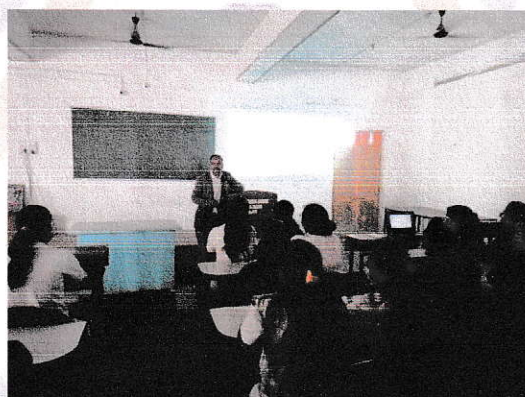

The audience understood the importance of the good interpersonal relationship which helped in

keeping positive environment in department.

REPORT

A lecture was conducted on Awareness of sterilisation and disinfection measures by Dr Jyoti Chidgupkar faculty and Professor Dept of Microbiology on 12th January 2021 at 10 am. The lecture was to create awareness on sterilisation and disinfection measures among the non teaching staff. The non teaching staff understood the importance of sterilising instruments and also disinfection of equipment in their respective departments thus preventing cross contamination. The proper usage and maintenance of the autoclave was also explained. Using PPE whenever necessary and proper disposal of bio medical waste was also discussed.

Outcome of the program:

1. The non teaching staff understood the importance of proper sterilisation and disinfection.
2. They also understood the proper working of the autoclave and how maintenance of aseptic environment and equipment was beneficial to all.

Awareness on Covid 19 safety Protocols

Date: 28th January 2021

Speaker: Dr Ranjit Gandhi

Place: Lecture Hall no 1

Contact hours – 10am to 4pm

Coordinator: Infection Control Committee

Details of the program

An informative lecture for spreading awareness of the Covid 19 safety Protocol amongst the non teaching staff was conducted by Dr Ranji Gandhi Sr. Lecturer Dept of Oral and Maxillofacial Surgery on 28th January 2021 at 10.30 am in Lecture Hall no: 1 at PDUDC.

Dr Ranjit introduced the topic and explained about the cause, course and nature of the Covid 19 viral disease. He stressed the need for taking necessary precautions while working in their respective departments to prevent cross contamination and spread. Procedures such as donning, doffing, using sanitizers often, proper waste disposal, quarantine and isolation were explained to the non teaching staff.

Outcome of the program:

1. The non teaching staff learnt about the infection and its consequences and the necessary precautions to be taken in its wake.
2. They understood need for disinfection and sterilisation and self protection.
